1549/07

Appendix 1, Programme Syllabus for Environmental Economics and Management –  
Master's programme

## **Possibility for further studies**

A student who has completed the Environmental Economics and Management –  
Master's programme and been awarded the qualification fulfils the specific entry  
requirements for third-cycle studies at the Faculty of Natural Resources and  
Agricultural Sciences in the subjects

- Business Administration
- Economics

The specific entry requirements are based on both first and second-cycle studies.  
Detailed requirements for each third-cycle subject area are shown in the respective  
study plan for the third cycle, see link  
<https://internt.slu.se/sv/Utbildning-forskning-foma/Utbildning-pa-forskarniva/Ansvariga-namnder-studierektorer/forskarutbildningsamnen/forskarutbildningsamnen-vid-nl-fakulteten/>

This appendix to the programme syllabus was approved by the study programmes  
board on 12 November and is valid as of the 2007/08 academic year. (Reg. no. 30-  
1549/07).

Appendix 3, Programme Syllabus for Environmental Economics and Management –  
Master's programme

**Instructions for independent projects within Environmental  
Economics and Management – Master's programme**

All independent projects (degree projects) must follow the joint guidelines that apply for independent work at SLU (REB 2008-06-02, Reg. no. SLU ua 30-1972/08). This means that they are to be managed under the same routines and remits as other higher education. Independent projects are tied to a course syllabus and the guidelines state that for projects comprising 15 credits or more, the syllabus must specify that they are to be published in Epsilon and examined for plagiarism in Urkund. In exceptional cases publication may be delayed; if so this must be stated in the student's individual work plan. The individual work plan is to serve as a supplement to the course plan and must specify how the independent project will fulfil the intended learning outcomes related to the degree. The supervisor and the examiner may not be the same person, and the same guidelines apply for independent project examiners as for examiners on other courses (REB 2008-06-02, Reg. no. SLU ua.30-2050/08).

Agreements with external clients are handled in a separate contract between SLU and the client. In cases where students have an external supervisor there must also be a principal supervisor at SLU who is responsible for ensuring that the project is carried out in accordance with SLU's guidelines and the current syllabus.

In addition to the general instructions that apply for all programmes and to the instructions in the syllabus for independent projects in business administration or economics (Independent Project/Degree Project in Business Administration A2E or Independent Project/Degree Project in Economics), an independent project in the Environmental Economics and Management – master's programme must be related to the intended learning outcomes specified in the programme syllabus.

This appendix to the programme syllabus was approved by the study programmes board on 24 April 2008 and is valid from 2007/08 academic year (reg.no. SLU ua 30-1549/07).
